INTERNSHIP

- **Bfactory Institute, Ranchi** Dec 2023 – Jan 2024
 - Worked as Marketing Intern
 - Demonstrated management and strong communication skills by working in a team to conduct tests and organize awareness sessions for students in Ranchi.

PROJECTS

- **Vehicle maintenance & services** | *Relational Database* Nov, 2024
 - Designed and developed a vehicle maintenance system using SQL to manage vehicle issues, mechanic details, customer records, and service history.
 - Created and managed databases for storing vehicle registration, service availability, and maintenance records.
 - Implemented SQL queries to efficiently add, update, and retrieve data for seamless system operations.

- **Waste management system** | *HTML & CSS, OOPS, JDBC, Servlet* Oct, 2024
 - Designed and developed a waste management system using HTML, CSS, and JavaScript for the frontend, ensuring an interactive user interface.
 - Applied SQL databases for the storage and management of customer, seller, and product data, facilitating login, registration, and product management processes.
 - Utilized the Servlet framework to establish dynamic web interactions and seamless connectivity between the frontend, backend, and database

- **Hospital management system** | *Relational Database* Sept, 2024
 - Created a hospital management system that brings together both administrative and medical tasks in one digital platform.
 - Automated tasks such as billing, inventory management, and reporting to reduce administrative workload and improve efficiency.
 - Enhanced patient care by managing medical records, appointments, and treatments using a relational database.
